## 👤 Professional Profile

---

As a dedicated software developer with a knack for problem-solving I have honed my skills in both front-end and back-end development. I realize the weight of the role you are recruiting for and I believe that I have more than enough expertise, right mindset and programming muscle that would be required in this particular field of work. Over the years, I have cultivated expertise in languages such as JavaScript, Python not forgetting back-end technologies such as Node.js allowing me to bring versatility to the development process. What sets me apart not just my technical proficiency but also my commitment to creating software that not only meets but exceeds user expectations.

## 💼 Work Experience

---

### Hela Money Intern

**May 2023 - August 2023:** *Front-End Engineer*

During my time at Hela.Money i was responsible for conducting thorough testing of the frontend code, including unit testing and integration testing, to identify and fix bugs. With me on board the Hela.Money Team managed to reduce bugs in their apps by 10 per cent. I also had to stay updated on industry trends, new technologies, and best practices in frontend development, to learn how to write and maintain documentation, including code comments and usage guidelines. I was responsible for optimizing code and assets for performance, considering factors like page load times and resource utilization. The main technologies i was using were React.js, HTML, PHP, Laravel, CSS and JavaScript not forgetting frameworks such as Express coupled with Node.js for the backend.

## 🎓 Education

---

### Multimedia University of Kenya

**In progress:** *B.S. Computer Science*

I am currently in the second semester of my third year at The Multimedia University of Kenya majoring in Full Stack Web and Mobile application development.

## ⚙️ Technical Skills

---

- ✓ Problem Solving
- ✓ Unit and Integration Testing
- ✓ Full Stack Web Development
- ✓ In Depth knowledge in Data Structures and Algorithms
- ✓ Technologies mastered: JavaScript, Python Redux, HTML, CSS, Node.js, Express, MongoDB

## 🌟 Certifications

---

- 🌟 The Ultimate Node JS Course by Mosh Hamedani
- 🌟 The Ultimate React JS Course by Mosh Hamedani
- 🌟 The Ultimate Data Structures and Algorithms Course by Mosh Hamedani

## 🗣️ Languages

---

- 🌐 Swahili
- 🌐 English - British
